**DETAILED ACTION**

1. Claims 1-31 is allowed.
2. An appeal conference was held on 11/02/2006 in response to an Appeal Brief (8/24/2006), where conferees found the arguments persuasive and the claims have overcome the art rejection. Therefore, the claimed invention is in condition for allowance.

***Allowable Subject Matter***

3. **The following is an examiner's statement of reasons for allowance:**

Claims 1-31 is allowable over art. Claims 1, 10, and 19 have overcome the Iverson invention and other prior arts because they fail to teach fixing an encrypted authentication message and an encrypted content message onto a tangible medium where the encrypted content message can be decrypted using a content decryption key and the encrypted authentication message can be decrypted using the recipient's decryption key wherein the recipient's key is known to the authorized recipient. A valid reply is created using the decrypted authentication message to send a valid reply to the sender in order to obtain the content decryption key to decrypt the encrypted content message.

**Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."**
